

Dear Families~

1-7-19

We will be having an **in school** "field" experience on, **Tuesday, January 15th**. All 5th graders will be attending an educational and hands-on, one hour session about the Native American tribes. Part of the 5th grade Social Studies curriculum is studying the Native American tribes (first people) here in the United States. To enrich your child's learning we invited an expert to come to Lindbergh. His name is *Gary Ghareeb* and will bring the museum to us including artifacts and lots of knowledge about these Native peoples. His presentation helps students understand what life was like as a Native American living in different regions of the U.S.

Please note the reason the field experience costs \$6 per student is because we are having the field experience come to us versus going to the location. This in school field experience is super fun and educational!!!

Each student will be receiving a **Social Studies participation grade** for attending. If you have any questions, please feel free to ask your child's teacher!!! We all look forward to the 15th.

Warmly,

The 5th Grade Teachers
