

PARTICIPATION SHEET

NAME _____

HOUR _____

You must participate at least 5 times during each marking period. Please keep track of your participation on the sheet provided. If you lose this sheet, you will receive a new sheet and **will not** be given credit for the old one.

Participation includes: answering questions in class, assisting others with teacher permission, assisting the teacher with various paperwork and other classroom tasks, asking good questions, reading various material aloud, and making a positive contribution to the class. The teacher will determine what activities merit credit as participation.

After you have participated, write the date in the space provided followed by a description of the participation you provided. You then need to give me the sheet the **same day**, so I can sign it and return it to you.

I **will not** sign sheets the next day or later in the week. This is **not extra credit** and counts as part of your grade, however, after completing one sheet any other participation will count towards extra credit. All forms are due as completed or at the end of the semester.
