

Wearing a Mask

    
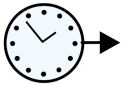

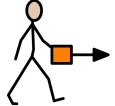

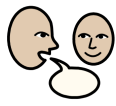

Wearing a mask can help stop germs!

         
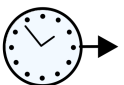

I may need to wear a mask when I go certain places

        
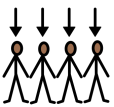

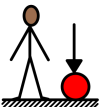

outside of my home. Other people will wear a mask too.

    
It might feel different but it will be ok.

          
I will also stay six feet away from others in public.

         
I will take my mask off when an adult says it is ok.

  
Then I will wash my hands.

       
Wearing masks can help everyone stay safe and healthy.
