## Add Youtube Videos to iBlog

You can very easily add youtube videos to your blog. Just follow these steps below. STEP ONE: Go to Youtube and find the video you wish to share on your blog. You will want to copy the URL of the video at the top of your browser as seen below.

STEP TWO: Create a new Post in iBlog. Add your title. Then PASTE the URL from Youtube into the content area of your post as seen below. Click Publish when you are done.

Add New Post	Screen Options * Help *
Looking for tutorials on how to setup new features on iBlog? Look here District Support Portal
