

Gingerbread Houses

Dear Parents and Guardians,

Prior to winter break, a gingerbread project is planned for the students. This project will cover the skills areas of math, science, and language arts. Specific skills the students will work on are: measurement, predictions, outcomes, sequencing, creative writing, and cooperative learning.

In order for all students to be actively involved, each student is asked to bring in the following items by Wednesday, December 18:

- Styrofoam base, cookie sheet or cardboard covered with foil
- Pint sized milk carton (students may bring one from home or use one from the school lunch)
- At least one container of ready-made frosting
- Plastic knife
- At least one package of graham crackers
- Candy, cookies, and other edible items for decorating their house

Your cooperation is greatly appreciated.

Happy Holidays!

Ms. Albertson
