

Ti-NSPIRE Basic Procedures

At the beginning of every class when you turn on your calculator:

Go to 1: New Document

Select NO to delete the unsaved document.

You will use this document all hour and will just add pages.

(Do not use the scratchpad)

Never delete any of the work you have done. We can help you, if we are able to look back to find any errors.

Any time you want to start on a new screen or need to create a new calculation/graph/spreadsheet:

Type ctrl doc to ADD A NEW PAGE

(Do not start a new document or use scratchpad.)

To move between pages:

Type ctrl and then the left or right arrow on the touch pad.

If you somehow lose the screen for your document, you can get back to it from the home screen by pressing 4: Current

To clear your work at end of the:

Press the Home/on button, then

Go to 1: New Document

Select NO to delete the unsaved doc.
