Disclaimer: Regina Parsons-Allen is a certified occupational therapy assistant, but is in no way representing herself as a certified occupational therapy assistant in the publication of this activity resource. This resource and the pages contained within are not intended to provide medical advice or physician/therapist instruction nor should they be used as a substitute for occupational therapy or other medical services. The activities do not replace any relationship with a child and their therapist nor do they provide one to one treatment or consultation for a child with an established plan of care based on an evaluation. Consult with a qualified occupational therapist if you have questions on the activities presented or how to implement them with a child. If concerned about your child's development, consult your child's physician or a licensed occupational therapist regarding specific concerns or other medical advice. All of the activities in this resource are designed for complete adult supervision. The adult implementing and preparing the materials is ultimately responsible for using their best judgement when choosing and providing the materials to best meet a child's skill and safety level. Do not provide objects or materials that would pose as a choking hazard to a child and caution with supervision is always recommended when utilizing scissors. These activities are not recommended for children under 3 years of age or for those children who mouth or chew objects of any age. The author is not liable for any impairment, damage, accident or loss arising out of the use or misuse of the activities suggested in this resource.
