

Summer Learning Expectations by Middle School Summer 2019

According to Johns Hopkins University, the effects of summer learning loss can result in nearly a three-month loss in grade-level equivalency in math and a two-month loss in grade-level equivalency in reading. In order to close the summer learning loss gap in reading and math, middle school students will be expected to complete Summer Learning before they return in the fall. Teachers will grade the **completed** summer work when school opens in August. Below are the literacy expectations by building name. Thank you so much for supporting your child's development through summer learning.
