# Science Fair Project...Getting Started!

Dear Snow Families of Grades 3-5,

All students grades 3-5 are required to participate in our 4<sup>th</sup> annual science fair. Please help your child brainstorm ideas for his/her science experiment. Ideas can be found on the following websites:

[www.sciencebuddies.org](http://www.sciencebuddies.org)   [www.super-science-fair-projects.com](http://www.super-science-fair-projects.com)   [www.sciencefair-projects.org](http://www.sciencefair-projects.org)

**Allowable Projects** Experimental type projects that use the scientific method with a testable question. Ex. Does aspirin affect the growth rate of roses? What brand of bread grows the most mold?

**Projects Not Allowed** Research projects (What is a hurricane?) or models (a volcano; a solar system). These do not involve testing.

Please have your child fill out this form and return it to your child's teacher no later than Thursday, December 22<sup>nd</sup>. Science projects are due Wednesday, January 25<sup>th</sup>. Students will present projects in class for a grade. The grading rubric is attached.
