

STEPS: (FOR EACH STEP, USE THE SHAPE THAT RESULTED FROM THE STEP ABOVE)

1. Translate the trapezoid 13 units right.
2. Reflect it over ~~the dotted line~~. $y = 11$
3. Translate it 4 units down.
4. Reflect it over the Y axis.
5. Rotate it 90° counter clockwise around the origin.
6. Reflect the trapezoid over the Y axis.
7. Rotate it 180° around point D.
8. Shade in the trapezoid after step 7.
