

Write *true* or *false*.

1. \overleftrightarrow{XY} is the same as \overleftrightarrow{YX} .

2. \overrightarrow{XY} is the same as \overrightarrow{YX} .

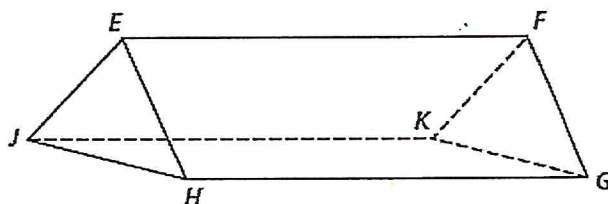

3. If \overrightarrow{AB} and \overrightarrow{AC} are opposite rays, then they form a line.

4. If two rays have the same endpoint, then they are collinear.

Refer to the diagram at the right.

7. Name all segments parallel to \overline{EF} .

8. Name all segments parallel to \overline{FG} .

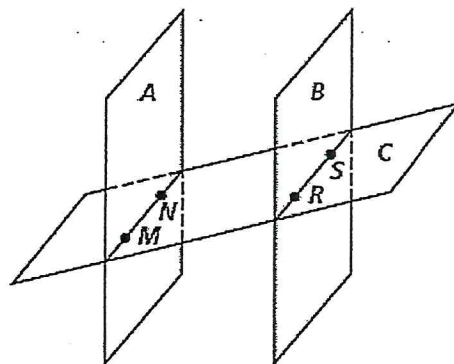

Refer to the diagram at the right.

10. Which pair(s) of planes is (are) parallel?

11. Which pair(s) of planes intersect?

12. Which planes intersect in \overleftrightarrow{MN} ?

13. Which planes intersect in \overleftrightarrow{RS} ?

Refer to the diagram at the right.

14. Name \overrightarrow{EF} in another way.

16. Name a pair of opposite rays with E as an endpoint.

17. Name in two different ways the ray opposite \overrightarrow{FG} .
