

Geometry Final Exam Review Bonus

Although the review packet for the final is optional, meaning it will not be collected for points, it is **HIGHLY RECOMMENDED** that you complete it. However, its completion is tied to a GREAT incentive. If you meet all the requirements, you have the opportunity to replace your lowest test score of the semester with your final exam score, if your final exam score is higher.

How Do I Take Advantage of Such a Great Offer?

Each day, you will be assigned pages that are due at the BEGINNING of class. Each and every problem on the page must be done, meaningfully attempted, with all work shown. (There can be no "IDK"s, "did not understand", "need help", "ask about", etc. You have your notes, your book, Khan Academy, your phone. Use them. I'm available before and after school too.) We will then check them in class, where you'll have the opportunity to ask questions. You must fix anything that is wrong on your review, both answers and work. The deadlines are as follows:

Pages 1,2 & 3 are due Friday, January 19, 2018

Pages 4,5 & 6 are due Monday, January 22, 2018

Pages 7 & 8 are due Tuesday, January 23, 2018 (your 3 X 5 card is due as well)

I will then collect your reviews again on your final exam day to make sure all corrections have been made to see if you do qualify for the dropping of the lowest test score.

*space is tight on the review....feel free to go to looseleaf whenever necessary!

Algebra 2 Final Exam Review Bonus

Although the review packet for the final is optional, meaning it will not be collected for points, it is **HIGHLY RECOMMENDED** that you complete it. However, its completion is tied to a GREAT incentive. If you meet all the requirements, you have the opportunity to replace your lowest test score of the semester with your final exam score, if your final exam score is higher.
