

Find the value of h in each parallelogram.

$$8h = 7 \cdot 10$$

$$8h = 70$$

$$8$$

$$h = 35/4 u$$

$$5h = 4 \cdot 4.3$$

$$5h = 17.2$$

$$5$$

$$h = 3.4$$

$$22h = 14 \cdot 11$$

$$22$$

$$22h = 154$$

$$h = 7$$

Find the area of each parallelogram.

$$b = 6$$

$$h = 8$$

$$A = 8 \cdot 6 = 48 u^2$$

$$b = 8$$

$$h = 5$$

$$A = 8 \cdot 5 = 40 u^2$$

$$h = 7$$

$$b = 8$$

$$A = 8 \cdot 7 = 56 u^2$$
