

On a separate sheet of paper, sketch and label the reference Δ that corresponds to the given angle.

1. $\theta = \frac{\pi}{4}$

2. $\theta = -225^\circ$

3. $\theta = -330^\circ$

4. $\theta = \frac{5\pi}{6}$

5. $\theta = 240^\circ$

6. $\theta = -\frac{2\pi}{3}$

1. Sketch θ
2. Find ref $<$
3. Draw & label ref Δ . Check signs!
