

# **“Christmas Around the World” Multimedia Presentations**

## **\*Some important things to remember:**

~ If you have a lot of information and can't fit it on to one slide, you can make more than one slide about a certain topic.

~ Make the text big enough so that someone in the back of the room could read it.

~ Remember--your information needs to be understandable for kids. If there are words you don't understand or parts that are tricky to say because they sound too "grown up," change them! Your teachers will be more than happy to help you do this.

~ **\*Have fun!\***
