Matching: Suffix and Terminology

A

- involuntary contraction of muscles
- tightening, narrowing, stricture
- vomiting
- eating, swallowing
- stretching, dilation, widening
- digestion
- flow, discharge
- suture
- bursting forth of blood
- surgical repair
- spitting
- opening
- stopping, controlling

B

- colectomy
- cheilosis
- duodenal
- choledochal
- cholangitis
- celiac disease
- buccal
- colonoscopy
- cholelithiasis
- cholecystectomy
- dentalgia
- cecal volvulus

Sections C-E

C

- herniorrhaphy
- gastrostomy
- gluconeogenesis
- hepatomegaly
- gastrojejunostomy
- esophageal atresia
- gastroenteritis
- ileostomy
- gingivectomy
- cholecystojejunostomy
- labiodental
- glossectomy

D

- palatoplasty
- pyloric stenosis
- proctosigmoidoscopy
- lipase
- periodontal membrane
- pancreatoduodenectomy
- splenic flexure
- cholecystolithiasis
- steatorrhea
- sialadenectomy
- sublingual
- oropharynx

E

- laparoscopy
- abdominal ultrasonography
- ERCP
- stool culture
- CT scan
- stool guaiac
- lower GI series
- liver function tests
- MRI
- gastric bypass
- paracentesis
- GI endoscopy
- nasogastric intubation
- upper GI series

Exercise Quiz

A

- digestion
- spitting
- vomiting
- bursting forth of blood
- eating, swallowing
- surgical repair
- suture
- widening, dilation
- narrowing
- stop, control
- separation; destruction
- flow, discharge

B

- excessive eating
- difficult digestion
- the esophagus is not open to the stomach at birth

C

- blepharoplasty
- sphincterotomy
- cholecystectomy
- herniorrhaphy
- gastroduodenal anastomosis
- cecostomy
- gingivectomy
- paracentesis

D

- dysphagia
- buccal
- hepatomegaly
- steatorrhea
- sublingual or hypoglossal
- choledochal

E

- inflammation of the mouth with small ulcers
- enzyme to digest fat
- abnormal condition of the lip
- removal of a salivary gland
- tissue surrounding a tooth
- removal of the colon

F

- nasogastric intubation
- serum bilirubin
- barium enema
- stool guaiac
- abdominal ultrasonography
- stool culture
- liver biopsy
- endoscopic retrograde cholangiopancreatography
- liver scan
- CT of the abdomen
- upper gastrointestinal series
- percutaneous transhepatic cholangiography
