These charts are the **Qualifying Standards for the Physical Fitness Challenge** that your child will be taking in April in Physical Education Class. If you are interested in seeing the qualifications required for all 5 components of physical education please use the **age of your child at the start of testing in April** of this school year's upcoming spring. You may refer to your child's pre-testing results and see where they currently are according to the standards. However, please know that your child will be tested again in the spring and these will be the results I use when determining students who qualify for either award.
