

E - Learning

Whenever I don't have school, I have to do my work on a computer.

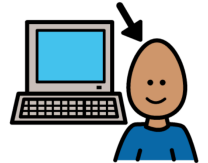

This means I will stay at home and do all my work from home.

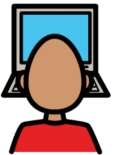

I will have to get my computer or tablet to see my work online.

My teacher will load lessons and my work onto the computer.

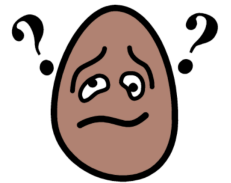

I will then have to get on the computer to do my school day.

My teacher will give me directions on what I need to do! I will have to listen.

My teacher will be there to help me if I get confused or don't know what to do.

E-learning is a change, but I can adjust and try my best.

I will continue to learn and listen to my teachers during e-learning!
