

Dear Families,

4/18/19

Students have begun their biography selections. I have created a google form for each student to fill out, describing the criteria. Below is a contract, which is more of thorough understanding of what the expectations are.

I understand that I need to choose three people that I would be interested in reading about. I also understand that these people should have a positive impact on society through actions or words. I have already checked to see, there is a book written about these people, and it as a level I can understand.

Person	Contribution to Society	Location of Book

I understand that I must be ready to sign up for my person on April 23rd.

I understand that I must have the book here at school on April 26th.

I understand that there may be work to do at home, in order to complete my research.

I understand that I must list the resources used for my research.

I understand that all of these responsibilities are MINE to complete with SOME help from my family.

Student Signature_____

I have confidence in my child to allow him/her to OWN this project and will ASSIST when asked. I appreciate my child's willingness to be creative and will SUPPORT his/her efforts.

Parent Signature_____
