

Name : _____

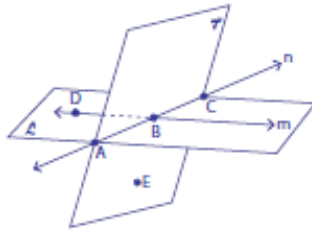

Score : _____

Points, Lines and Planes

Sheet 1

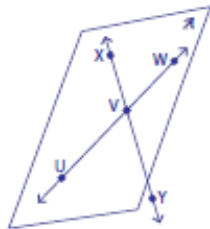

Observe the figure and answer the following.

1)

- Name the planes. _____
- Write all the points on the plane \mathcal{L} . _____
- Write a set of points which are not collinear in plane \mathcal{T} . _____
- Write any three points which are coplanar in plane \mathcal{T} . _____
- At which line do the planes \mathcal{L} and \mathcal{T} intersect? _____

2)

- Name any two line segments. _____
- Which point is not coplanar with the points U and V? _____
- Write a set of points which are collinear. _____
- Name a pair of opposite rays. _____
- Name the plane in two ways. _____
