

Introduce your beginning writers to the idea of opinion writing with this mini set of printables. Page by page you'll build the foundation that your students will need later on to write opinion pieces with supporting details.

What's included? A set of 4 opinion writing printables with or without the writing prompt for differentiated instruction. If you like this set of freebies, be sure to visit my store to find more! Information is included on the last page.

When students are ready to write, it's as easy as I-2-3! First, they read the question and think about the two featured choices. Second, they write to tell their opinion. Third, they color the picture that matches their writing.

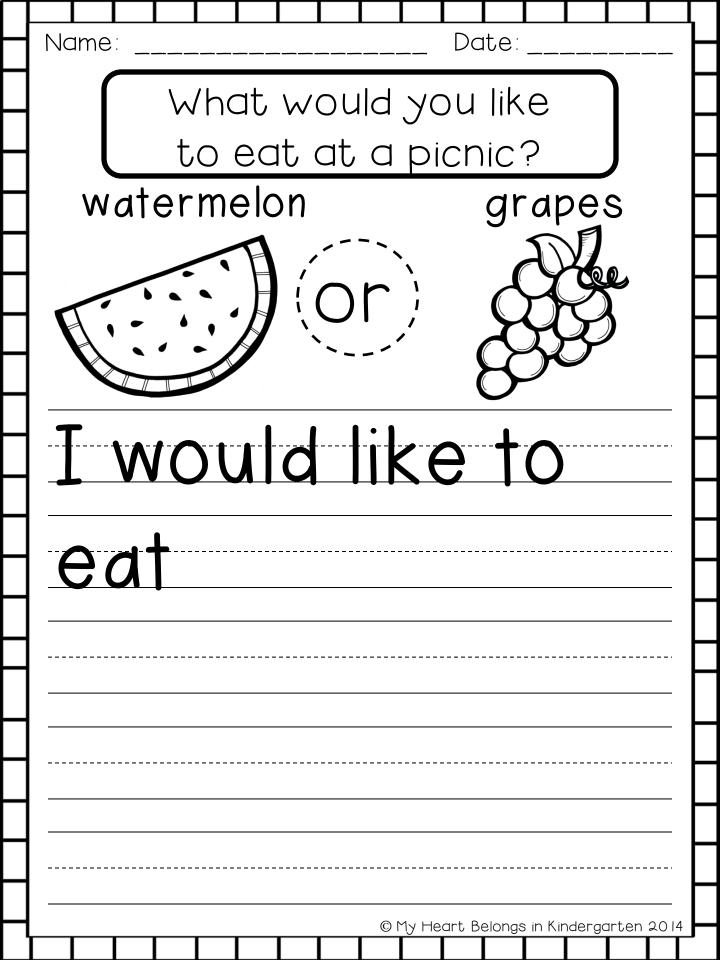

> Happy Teaching!
