Appreciating Poetry

What makes a song unforgettable? Perhaps it’s the rhythm of the music or the catchy lyrics. Poetry is memorable in the same way. Like musicians, poets use words, rhythm, and sounds to convey feelings and ideas. In this workshop, you will learn how poets use the structure and elements of poetry to express meaning.

Part 1: Structure and Form

How does a poem speak to you from the page? First, you may notice its shape. A poem’s shape, or form, is the way its words and lines are laid out on the page. As the main unit in a poem, the line may or may not be a complete sentence, and it can vary in length.

In some poems, the lines are arranged in groups, called stanzas. A stanza’s role in a poem is like that of a paragraph in prose. Each stanza is a separate emotion or idea, but it contributes to the overall meaning of the poem.

Some poems have a conventional, or traditional, form, which means they follow fixed rules, such as a set number of lines or a repeating pattern of rhythm or rhyme. Traditional forms include the limerick and haiku. Poems in irregular, or open, form may have rhyme, but their shapes and patterns may be unusual. Free verse, an open form, has a rhythm more like everyday speech, and it does not have regular patterns of rhyme.

Whether writing in traditional or open forms, poets use graphical elements to help convey meaning. Graphical elements include the position and appearance of words, capital letters, lines, and stanzas on the page.

Examine the structure and form of this traditional poem.

A Minor Bird
Poem by Robert Frost

I have wished a bird would fly away,
And not sing by my house all day;

Have clapped my hands at him from the door
When it seemed as if I could bear no more.

5 The fault must partly have been in me.
The bird was not to blame for his key.

And of course there must be something wrong
In wanting to silence any song.
**MODEL: STRUCTURE AND FORM**

The following poem is written in free verse and sounds like everyday speech. Read it aloud to hear what the speaker is saying about his or her special hiding place. Notice how the poem’s structure hints at its meaning.

**UNDER THE BACK PORCH**

Poem by Virginia Hamilton

Our house is two stories high
shaped like a white box.
There is a yard stretched around it
and in back
a wooden porch.

Under the back porch is my place.
I rest there.
I go there when I have to be alone.
It is always shaded and damp.

Sunlight only slants through the slats
in long strips of light,
and the smell of the damp
is moist green,
like the moss that grows here.

My sisters and brothers
can stand on the back porch
and never know
I am here
underneath.

It is my place.
All mine.

1. Describe the focus of each stanza. (What do you “see”?) Look at the boxed details for clues.

2. Why do you think the speaker likes hiding under the back porch? Explain how the structure and form of the poem help you imagine the speaker’s world.

3. Notice the last four lines of the poem. What effect does their short length help to create? (Hint: Think about where the speaker is at this point in the poem.)
Part 2: Poetic Devices

Poetry has the power to affect your emotions and transport you to new worlds, much as music and films do. Poets, however, rely on language alone to create sounds and images. With sound devices, poets can match the rhythm of ocean waves or the roar of a crowd. They use imagery and figurative language to appeal to your senses and create scenes as vivid as those that unfold on a movie screen. As you read a poem aloud, notice how the sounds and images capture your attention and help you understand the poem’s meaning.

SOUND DEVICES

Sound devices give poems a musical quality, but they can also create a mood and emphasize important ideas or words. Here are a few of the sound devices poets use.

**MODEL 1: RHYME AND RHYTHM**

As you read this short poem aloud, notice how Emily Dickinson uses rhyme and rhythm to emphasize the most important words.

*A word is dead*

Poem by Emily Dickinson

A word is **dead**
When it is **said**,
Some say.
I say it just
Begins to **live**
That **day**.

2. Stressed and unstressed syllables are marked in the second stanza. How does the rhythm in this stanza compare with that in the first stanza?

**MODEL 2: OTHER SOUND DEVICES**

This free-verse poem is filled with sound devices: repetition, rhyme, alliteration, and **onomatopoeia**—the use of words (made-up or real) whose sounds suggest their meanings. How do these sound devices help you experience the snow?

*Cynthia in the Snow*

Poem by Gwendolyn Brooks

It **SUSHES**.
It hushes
The loudness in the road.
It flitter-titters,
And laughs away from me.
It **laughs a lovely whiteness**.
And whitely whirs away,
To be
Some otherwhere,
Still white as milk or shirts.
So beautiful it hurts.

1. What onomatopoeic words does the poet use to suggest the silencing effect of falling snow?
2. The use of alliteration in the **boxed** line helps to create a light, joyful mood. Find another example of alliteration.
3. Identify three pairs of rhymes. For one pair, explain what qualities of snow the rhyme helps to emphasize.
**Imagery and Figurative Language**

*Imagery* is language that appeals to the five senses—sight, hearing, smell, taste, and touch. “Cynthia in the Snow” focuses on the sense of hearing, but it also helps you see the snow as it “whitely whirs away.” With a few vivid images, the poet draws you into the winter scene.

One way poets create imagery is through *figurative language*. Figurative language uses creative comparisons to help readers picture ordinary things in new ways. For example, the snow is not just white but “white as milk or shirts.” Here are three types of figurative language.

When you let proud words go, it is not easy to call them back.&lt;br&gt;They wear long boots, hard boots; they walk off proud; they can’t hear you calling—&lt;br&gt;Look out how you use proud words.&lt;br&gt;—“Primer Lesson” by Carl Sandburg</td>

Part 3: Analyze the Text

In this poem, the speaker reflects on her mother’s courage, a quality that she has missed since her mother died. Use what you’ve learned in this workshop to analyze the elements—structure, form, sound devices, figurative language, and imagery—that help to create a picture of a remarkable parent.

The COURAGE
That My Mother Had
Poem by Edna St. Vincent Millay

The courage that my mother had
Went with her, and is with her still:
Rock from New England quarried;¹
Now granite in a granite hill.

The golden brooch² my mother wore
She left behind for me to wear;
I have no thing I treasure more:
Yet, it is something I could spare.

Oh, if instead she’d left to me
The thing she took into the grave!—
That courage like a rock, which she
Has no more need of, and I have.

1. Describe two characteristics that make this a traditional poem. Think about the number of lines in each stanza and the patterns of rhythm and rhyme.

2. One example of alliteration is boxed. Find another example.

3. Identify the simile in the third stanza. What does it suggest about the mother’s personality?

4. Identify the focus of each stanza and describe what each one contributes to the overall meaning of the poem. Think about the speaker’s view of herself and of her mother.

¹ quarried: dug up from the ground.
² brooch: a piece of jewelry that can be fastened to clothing.
