"Jabir The Flower"

Date: 3/4/16 Period: 4

I'm a flower named
Jabir. I am going to
explain how I use
photosynthesis.

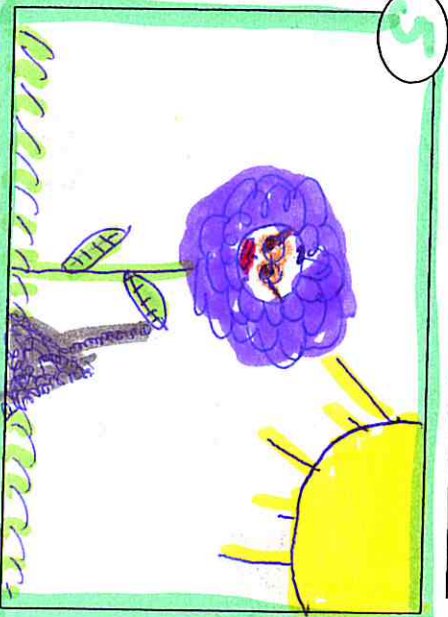

I have in Sun to
help me survive.

I'm drinking my
favorite drink Carbon
Dioxide.

Now my body is
creating glucose. I like
drinking alot.

I am now producing
good old glucose.

I am now producing
glucose for all my
human friends to
survive.

Name(s):

Fatima Nimer

Date: 2/4/16

Period: _____

1

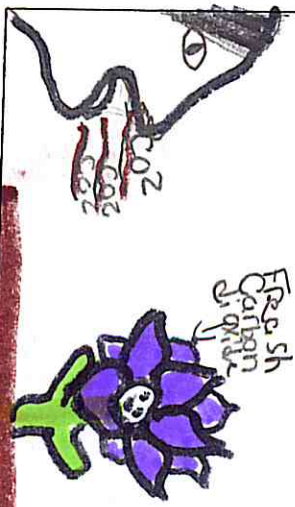

This flower named Lily is going to go through the process of photosynthesis.

2

First She will take in sunlight which is also called light energy

3

After She takes in carbon dioxide, which is like oxygen for her. we breath out oxygen and they take it in.

4

I need water to make food for myself. that is part of photosynthesis.

5

I am giving off my sugar called glucose. the glucose is a product.

6

I also give off oxygen as a by product. the humans need to have oxygen so they can give me carbon dioxide.
