

Getting onto Google
Classroom to start your
CER about the orange
Inquiry Cube.sd

Now write your CER.

- *Use full sentences.
- *State group claim.
- *Use your evidence and explain why it brought you to your conclusion.
- *Use transitions.

↓ indent

1st sentence is the group claim.

The next sentence or 2 should explain what your evidence is that brought you to the idea that for sure the blank side will have a number four.

The next sentences should explain what your evidence is that brought you to the idea that for sure you knew that there should be only 4 dots.

The next sentence should explain what your evidence is that made you arrange the dots like a domino or die.

Then write a conclusion sentence.
