Writing: PLEASE complete this about 3 days of the week and put the date at the top of each entry. It should be one continuous piece of writing only separated by dates. Continue your journal on paper or in google docs and share with me. This is a monumental time in American history and it should be documented. How are you feeling, what are you doing in your free time, what have you learned about online learning, ect. (Your writing could be a primary source one day,

think about that!)
