

# Create a Step by Step Tutorial for Your Flash ANIMATION 12-15-17

## Today's Objectives:

By the end of the class period students should be able to say:

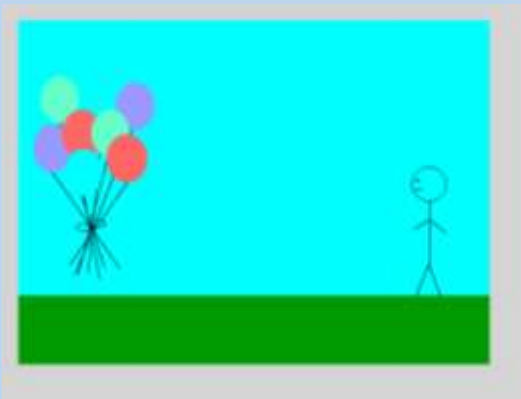

1. **I CAN EXPLAIN** how to use the tools in Adobe Flash to create a frame by frame animation, using concise step by step instructions
  2. **I CAN** create a tutorial in Microsoft Word that includes at least 4 screenshots and instructions and save it as a PDF
- 

**Step 1** Create a new MS Word document

**Step 2** Add a title and center align it

**Step 3** Type out your directions one step at a time. Make sure to describe in detail how you created each scene. Which tools did you use? Did you import any images? How did you create the background? How did you make your objects move?

**Step 4** Add screen shot for each of the 4 scenes that you created in your animation

**Step 5** Save as ### last name, first name-ANIMATION

**Step 6** Save again as a PDF and drop off only the PDF
