

Congruence and Triangles

Complete each congruence statement by naming the corresponding angle or side.

1)  $\triangle DEF \cong \triangle KJI$

$\overline{FD} \cong ? \overline{JK}$

2)  $\triangle BAC \cong \triangle LMN$

$\angle A \cong ? \angle M$

3)  $\triangle TUV \cong \triangle GFE$

$\angle U \cong ? \angle F$

4)  $\triangle WVU \cong \triangle GHI$

$\angle W \cong ? \angle G$

5)  $\triangle ZXY \cong \triangle ZXC$

$\angle Y \cong ? \angle C$

6)  $\triangle DEF \cong \triangle DSR$

$\angle F \cong ? \angle R$

Write a statement that indicates that the triangles in each pair are congruent.

7)

$\triangle DJKI \cong \triangle TRS$

8)

$\triangle BCD \cong \triangle GHI$
