

LESSON 49 Assignment, Part C, Line Graph

Directions: The line graph below shows the United States energy dependence. Use this graph to answer the questions below.

1. About what percent of our energy is imported from other countries? _____
2. Has consumption of energy between 1970 and 1985 gone up, down, or remained about the same? _____
3. Has production of energy between 1970 and 1985 gone up, down, or remained about the same? _____
4. During what period of time was production of energy about the same? _____
5. During what year did consumption of energy peak? _____

Directions: In the space below construct a line graph that will illustrate the following data:

Enrollment figures for the Cherry Hill School District are as follows:
 1950, 3,000 students; 1955, 3,500 students; 1960, 4,200 students; 1965, 4,500 students; 1970, 2,500 students; 1975, 2,500 students; 1980, 2,800 students; 1985, 3,200 students; 1990, 3,900 students.
