

Economic Poster Board Project

Due December 21, 2012

Throughout the Economics textbook, there are many figures, diagrams, and illustrations which demonstrate various economic concepts and principles. You and a partner will create your own poster board to demonstrate an economic concept or principle. You may take a figure/diagram from the book and **improve** upon it, you may create your own unique poster board, or you may employ one of the mapping strategies to create a poster board. (No topics from Chapter 1)

Relates directly to an Economic Principle/Concept
