Case #1

Income	Amount of Tax	% of Tax
$ 12,000.00	1,200.00	
36,000.00	5,400.00	
58,000.00	11,600.00	
80,000.00	20,000.00	
120,000.00	36,000.00	

Identify if the tax is progressive, regressive, or proportional and Explain why.

Case #2

Income	Amount of Tax	% of Tax
$ 10,000.00	2,000.00	
36,000.00	7,200.00	
60,000.00	12,000.00	
80,000.00	20,000.00	
120,000.00	36,000.00	

Identify if the tax is progressive, regressive, or proportional and Explain why.

Case #3

Provide an Example of a Regressive Tax and explain using mathematics why it is Regressive. Compare an individual making $25,000 and another making $100,000 in your example.
