

Economic Poster Board Project

Due January 7, 2015

Throughout the Economics textbook, there are many figures, diagrams, and illustrations which demonstrate various economic concepts and principles. You and a partner will create your own poster board to demonstrate an economic concept or principle. You may take one of our thinking maps from the book and **improve** upon it, or you may create your own unique poster board from any economic concept. **No topics from Chapter 1**

Relates directly to an Economic Principle/Concept which is stated clearly and explained on the poster board.	10

Appearance:

Colorful and Bright -	4
-----------------------	---

Easy to Read (Large bold lettering) -	4
---------------------------------------	---

Contains symbols/Illustrations/Pictures - Graphs or Charts (Must have at least 4)	8
--	---

Neat and organized -	6
----------------------	---

No spelling mistakes -	4
------------------------	---

Originality -	4
---------------	---

Total	40
-------	----

Late projects will receive an automatic 1/4 total point deduction.

If you would prefer to do a mash-up video on an economic concept or topic, the same rubric applies, however, the mash-up must be at least 3 ½ minutes long with at least 20 slides and have appropriate music. A 2 point deduction will be taken for every 10 seconds it is short, as well as, for every slide missing. Strange music will receive a 5 point deduction.
