

SQ3R - Identifying Minerals

Step 1 - Survey ✓

Step 2 - Question (Do Not use "What Is" - use "How")
How do you identify Minerals?

Step 3 - Read

- Several Simple Tests ✓
- based on physical Properties ✓
- use a combination of tests, Not just 1

Step 4 (Summary) - Retell in complete Sentences.

In science, we will identify Minerals. There are several Simple Tests to use. All of the mineral Tests are based on Physical properties. We use a combination of tests, Not ~~just~~ just 1 test to identify a Mineral.

Step 5 - Recite ✓
