

Objective: 12/3/13

Students will demonstrate comprehension of the 7 physical Properties that are used to identify unknown Minerals.

L.O.

Students will write SQ3R reading Models for physical properties of Minerals by using SQ3R.

Physical Properties: Pgs. 90-95

1. Hardness
2. Color
3. Streak
4. Luster
5. Cleavage OR Fracture
6. Texture
7. Density

(TO DO)
* How TO Conduct the Test
AND
* How you decide the Result
