Density Experiment- Paragraph 2 - Data

Stems Suggestions -

** Write only about Densities
~~you~~ you measured and
Calculated.

1. For example, I calculated...
2. As a result of measuring
mass and Volume in Trial 2...
3. Then in Trial 2...
4. In the same way for Object
#4....
5. Furthermore, in Trial 2....
6. I Also calculated...
7. With regards to Object #2...
8. The outcome of measuring
mass and Volume to Calculate
the density...
9. After examining the Volume
and mass for Object #5...
10. The relationship between
mass and Volume allows me
to Calculate the density for
Trial #1, object #7 that
equals...
