Name: **Study Guide - Test on Monday**
10/15/18

Pretest 2-2

Measure each set of lines in centimeters, and write the length on the line.
Complete the   comparison sentences.

1. Line A _____ 10cm

Line B _____ 7cm

a. Line A is about __3__ cm longer than line B. $10 - 7 = 3$

b. Line A and B are about __17__ cm combined. $10 + 7 = 17$

c. Which is longer? (Line A)   Line B

d. How much is longer? __3__ centimeters

2. An ant walked 12 centimeters to the right on the ruler and then turned around
and walked 5 centimeters to the left. His starting point is marked on the ruler.
Where is the ant now? Show your work on the broken ruler.

The ant is on 18 cm.
