

Elements on a Map

Thursday

1. Why is the inset map of North America included?

2. Use the scale and a ruler to find the approximate distance from Denver to Lincoln. Measure to the nearest $\frac{1}{4}$ inch.

Friday

1. Use the scale and a ruler to find the approximate distance from Raleigh to Little Rock and then to Austin. Measure to the nearest $\frac{1}{4}$ inch.
2. Use the scale and a ruler to find the approximate distance from the nation's capital to the capital of California. Measure to the nearest $\frac{1}{4}$ inch.

Challenge

Write two questions about the distance between capitals on the back of the map. Be sure to include the answers. Ask a classmate to solve the two problems.
