

## Elements on a Map

### Thursday

1. Why is the inset map of North America included?

---

---

2. Use the scale and a ruler to find the approximate distance from Denver to Lincoln. Measure to the nearest  $\frac{1}{4}$  inch.

---

### Friday

1. Use the scale and a ruler to find the approximate distance from Raleigh to Little Rock and then to Austin. Measure to the nearest  $\frac{1}{4}$  inch,

---

2. Use the scale and a ruler to find the approximate distance from the nation's capital to the capital of California. Measure to the nearest  $\frac{1}{4}$  inch.

---

### Challenge

Write two questions about the distance between capitals on the back of the map. Be sure to include the answers. Ask a classmate to solve the two problems.
