

## UNIT 1 STUDY GUIDE

1. Label the 7 continents, 5 oceans, and Indonesia. Draw and label the equator and prime meridian. 2.

2. Lines of \_\_\_\_\_ run \_\_\_\_\_ and \_\_\_\_\_ and are parallel to the equator. Lines of latitude divide Earth into \_\_\_\_\_ and \_\_\_\_\_ hemisphere.

3. The prime meridian runs from the North to the South pole. It divides Earth into \_\_\_\_\_ and \_\_\_\_\_ hemispheres. Be able to locate places on the map using longitude and latitude coordinates.

4. Define geography. What are two questions geographers ask?

5. What are two areas of geography? Define them and give examples for each.

6. List the 4 spatial scales geographers use to study Earth.
