

Diagram:

Definition:

A location in space.

Diagram:

Definition:

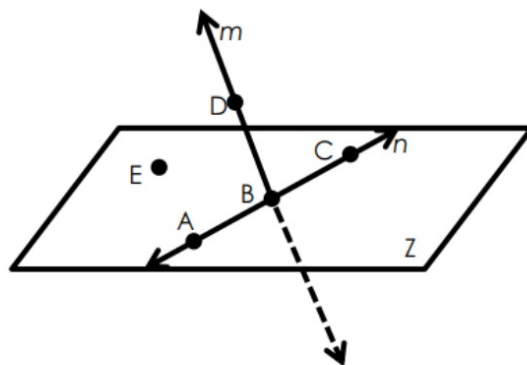

Points on the same line.

Diagram:

Definition:

Points on the same plane.

- 1 Two other names for \overleftrightarrow{AB} are

\overleftrightarrow{BA} \overleftrightarrow{BC} line n

- 2 Two other names for plane Z are

BAE EAB CBE

- 3 Three points that are collinear, include:

A B C

- 4 Four points that are coplanar, include:

E A B C

- 5 Another name for \overleftrightarrow{BC} is

\overleftrightarrow{CB}

- 6 Name two rays with endpoint B.

\overrightarrow{BD} \overrightarrow{BA}
