

4.25.16

Slot Quiz will be tomorrow.

1. What are the formulas for area and perimeter of square, area and perimeter of a rectangle, area of parallelogram, and area of a triangle?

Triangle:  $A = \frac{1}{2}b \cdot h$  or  $A = \frac{b \cdot h}{2}$

Square:  $A = s^2$   $P = 4s$

Parallelogram  
 $A = b \cdot h$

Rectangle:  $A = l \cdot w$   $P = 2l + 2w$

2. What is one thing you still need help with for area and perimeter?

3. What is one thing you are confident about with area and perimeter?
