Color Powder FAQs

Does Color Powder Stain Clothing?

Color powder washes out of most clothing. However, it can stain some materials. 100% cotton clothing is recommended and typical machine washing with stain remover, removes the stains. We recommend removing excess powder from clothing before washing and/or applying water.

Does Color Powder Stain Skin or Hair?

Just as with clothing we recommend shaking off all excess powder before exposing to water. Normal soap and water should remove color powder from skin and hair. Some color does tend to linger for a few days especially on blonde hair. If you are worried about staining, we recommend applying a moisturizer to skin and coating your hair with a small amount of coconut or olive oil before the event.
