Factor Trees and Prime Factorization #3

Directions: For each number, create a factor tree and list its prime factorization in both expanded form and exponential form if necessary.

1). 42

2). 56

3). 36

4). 120

5). 45

6). 105

7). 43

8). 144

9). 27

10). 48
