RHODE ISLAND

FOUNDED 1644 • ROGUE'S ISLAND • LITTLE RHODEY

Rhode Island was formed in 1636 by Roger Williams, a Puritan minister with different ideas. He fled to the small state after being banished from the Bay Colony. He wanted to make a colony where everyone is, no matter religion, was welcome and safe. "Rogue's Island" is now the most liberal colony and home to the most accepting and forward minded individuals, even hosting Anne Hutchinson.

In the Massachusetts Bay Colony, Jews and Christians were being persecuted. Roger Williams, a Puritan, fled to Rhode Island and founded it. Rhode Island is one of the most liberal and open minded colonies in New England dealing with religion. You were not obligated to attend a religious worship and did not have to pay taxes to the church.

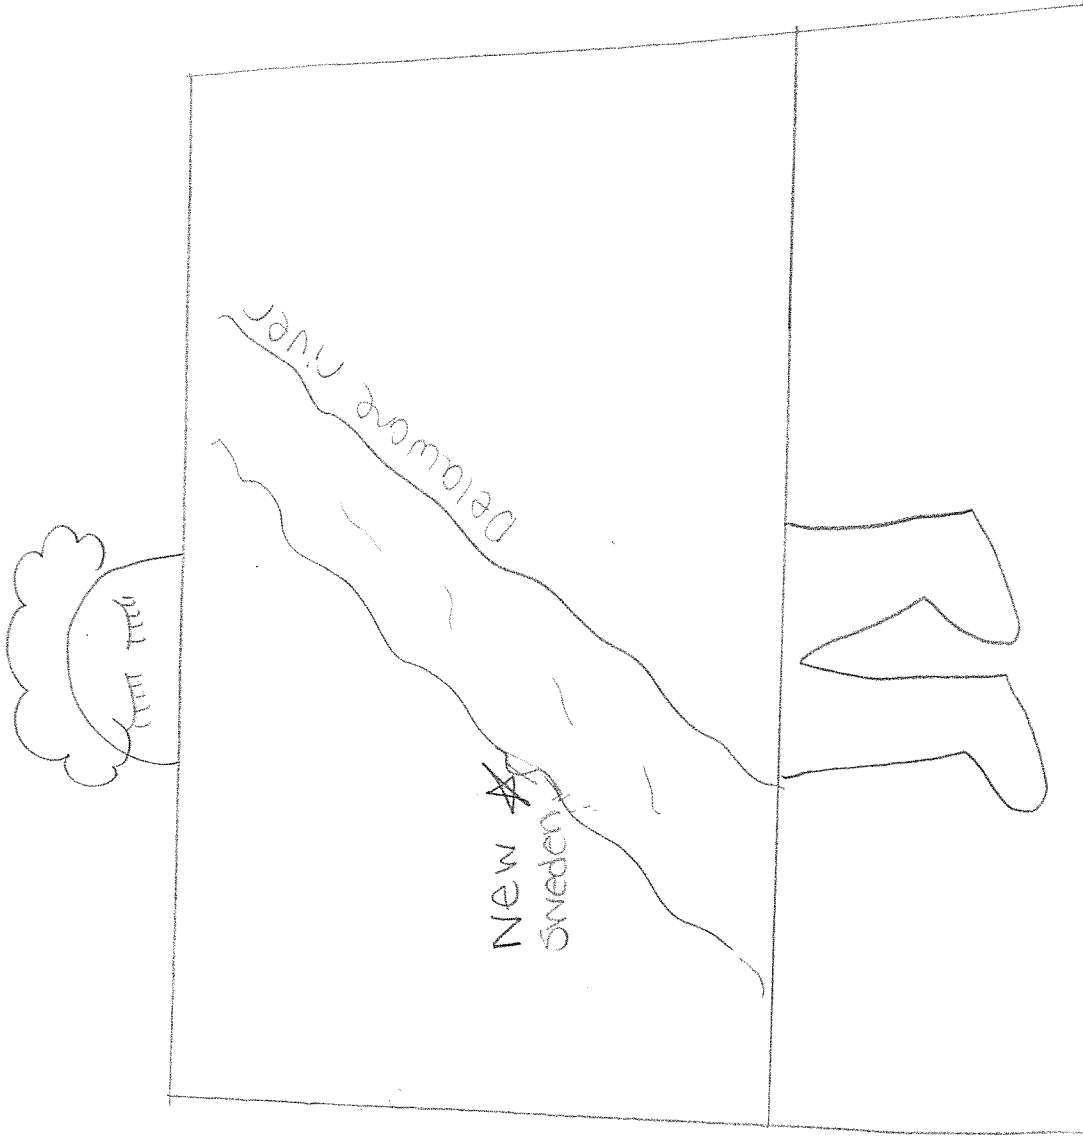

"the traditional home of the otherwise minded."

New Sweden

* The Dutch attacked the Swedens and Swedish rule ended. The colonists were absorbed into new Netherlands.

* It was founded in a very nice place next to the river with a lot

of water and fertile land.

* It was the golden for the Swedens King Gustavus had carried the torch for protestantism.

* Although New Sweden faded away, the Swedish place names & log cabins were left behind. Swedes were also one of the first in America & there was a mixture of Swedish blood.
