

The SpaceX Falcon 9 Rocket

ASTRONAUTS TO LAUNCH FROM U.S.

Two U.S. astronauts plan to launch from the U.S. on May 27.

The astronauts will be on a spacecraft called the Crew Dragon.

The Crew Dragon will be attached to a rocket called the SpaceX

Falcon 9 rocket. The rocket and spacecraft will launch from the

Kennedy Space Center in Florida. The spacecraft will detach from

the rocket and fly to the International Space Station. Astronauts

have not launched from the U.S. since 2011! Usually astronauts

launch from other countries. Many people are excited for the launch.

They may watch the launch online. Will you watch the launch?

WHAT

ASTRONAUTS TO LAUNCH FROM U.S.

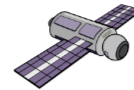

Astronauts plan to launch from the U.S. on May 27.

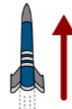

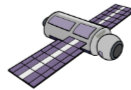

27

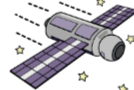

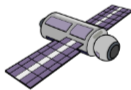

The astronauts will be on a spacecraft.

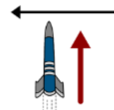

The spacecraft will launch from Florida.

The spacecraft will fly to the International Space Station.

Astronauts have not launched from the U.S. in years !

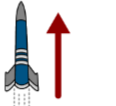

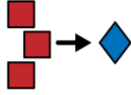

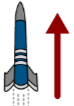

The last astronauts launched from the U.S. in 2011.

      2011

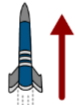

Astronauts usually launch from other countries.

Many people are excited for the launch.

They may watch the launch online.

Will you watch the launch ?

   ?

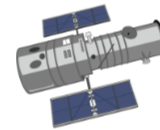

1. **WHAT** will the spacecraft fly to ?

International
Space Station

Hubble Space
Telescope

Sun

2. **WHO** will be on the spacecraft ?

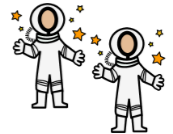

magicians

lawyers

astronauts

3. **WHERE** will the spacecraft
launch from ?

Florida

Maine

Colorado
