

DRIVE-IN THEATERS

Cars at a Drive-In Theater

Drive-in theaters are popular now. Many movie theaters across the U.S. are closed because of the coronavirus, so people are going to drive-in theaters instead. A drive-in theater is an outside area with a huge screen. The theater shows movies on the screen at night when the sky is dark. People drive their cars into the outside area and park in front of the screen. They sit in their cars to watch the movies. Many people enjoy going to drive-in theaters when the temperatures outside are warm. Will your family go to a drive-in theater?
