

TEACHER APPRECIATION DAY

A Student Watching a Teacher Online

Teacher Appreciation Day 2020 is May 5. This day is part of Teacher Appreciation Week, May 4 – 8. Teachers help students learn subjects like reading, writing, math and science. Teachers also coach sports teams, lead clubs, tutor students and help during recess and lunch. Teachers usually help students learn in schools, but most schools are closed now because of the coronavirus. Many teachers are helping students learn online instead. Teachers are awesome! They help students become awesome too. On Teacher Appreciation Day, students can thank their teachers with emails, videos, cards or small gifts. How will you thank your teachers?
