

ONLINE SPELLING BEE

The 2019 Spelling Bee Champions

An online spelling bee called the SpellPundit Online National Spelling Bee is May 23-28. Two teenagers planned this spelling bee after the annual Scripps National Spelling Bee was cancelled because of the coronavirus. The best student spellers from across the U.S. usually compete at the Scripps spelling bee. The students compete by spelling words. Students who correctly spell words stay in the spelling bee. Students who incorrectly spell words leave the spelling bee. This year students will compete in a similar way online! The online spelling bee wants students to be honest. Webcams will record the students. One student will win \$2,500!
