

PEOPLE BUYING BIKES

People Riding Bikes

Many people are buying bikes now. People have been staying inside for the past few months because of the coronavirus. Now people are ready to go outside and do fun activities. Many people want to ride bikes! Some people want to ride bikes instead of riding on buses or trains. They are worried about the coronavirus. Some people want to ride bikes for exercise. Because so many people have bought bikes, bike shops and other shops are running out of bikes to sell. People can order bikes, but some shops will not have bikes to sell for weeks. Do you like to ride a bike?
