

# 5.G.A

Graph points on the coordinate plane to solve real-world and mathematical problems.

- Use the graph to answer the question.

Which point is located at  $(1\frac{1}{2}, 1\frac{1}{4})$ ?

- Point A
- Point B
- Point C
- Point D

- Plot each point on the coordinate plane.

Point A: Plot the point (2, 8).

Point B: Plot the point (4, 5).

Point C: Plot the point (7, 6).

- The graph shows the locations of Nina's home, The park, her school, and the post office.

Write the coordinate pair that represents the location of each place.

Nina's home: (\_\_\_\_, \_\_\_\_)

Post office: (\_\_\_\_, \_\_\_\_)

School: (\_\_\_\_, \_\_\_\_)

Park: (\_\_\_\_, \_\_\_\_)
