

1. Read sedimentary rock article

*. Yellow and blue seats: Draw how igneous rocks are formed, and they could turn into metamorphic rocks.

*. Purple and orange seats: Draw how metamorphic rocks are formed, and how they turn into sedimentary rocks.

*Red and green seats: Draw how sedimentary rocks are formed, and how they turn into igneous rocks.

**Pictures need to be colored and labeled

3. After your group is finished share your picture with your group. Start with the yellow seat.
